

FÁBIO MARCELINO

Senior Full Stack Engineer — TypeScript · React · Node.js · AWS · PostgreSQL

Dublin, Ireland | +353 83 804 0056 | fabio_s.m@hotmail.com | linkedin.com/in/fabio-marcelino-b03932b5

PROFILE

Senior Full Stack Engineer with **10+ years of experience** building scalable web and mobile products in SaaS environments. Core stack: **TypeScript, React, Node.js, AWS** and **PostgreSQL**, with a strong PHP/Laravel foundation from earlier years. Experience across the full product lifecycle — architecture, RESTful API design, CI/CD, deployment and monitoring — in fast-changing scale-up settings and agile Scrum teams. Known for taking ownership, strong analytical problem-solving, and clear communication with technical and non-technical stakeholders.

EXPERIENCE

Software Engineer — LCB Project Management

Sep 2025 – Present

Dublin, Ireland

- Sole full stack engineer of **Sync'D**, a real-time project and operations management SaaS platform for the construction industry (web + mobile), built from scratch.
- Architected and developed the backend services and REST APIs with **Node.js and TypeScript**; web app with **React**; cross-platform mobile app with **React Native**.
- Designed and operate the **AWS/Azure** cloud architecture — hosting, CI/CD pipelines, monitoring and security — building for scale from day one.
- Own architectural decisions, reliability and performance across the stack with full end-to-end responsibility.

PHP Developer — Superlógica Tecnologias S.A. (SaaS)

Aug 2021 – Jul 2024

Campinas, Brazil (remote)

- Developed and maintained high-traffic SaaS real estate web systems serving **thousands of active users**, in a distributed agile team following Scrum.
- Shipped features and resolved complex production issues with a modern stack — **JavaScript/TypeScript, MySQL, Zend Framework** — applying Clean Code and SOLID principles.
- Collaborated through GitHub/GitLab, peer code reviews, sprint planning and CI/CD in a structured release process.

IT Analyst — Sicoob Cooperbom

Jul 2019 – May 2021

Salvador, Brazil

- Led design and delivery of internal tools that automated cross-department processes, replacing manual workflows.
- Delivered full-stack web solutions with **Laravel and CodeIgniter** (PHP); administered Linux servers, Apache, MariaDB.
- Translated business requirements with non-technical stakeholders directly into working software.

Technology Analyst — Sicoob Central Bahia

Jun 2015 – Jul 2019

Salvador, Brazil

- The organization's **sole web developer**: built and maintained intranet solutions and internal systems used across departments.
- Managed Linux servers, user management, network administration and IT infrastructure.

Technology Assistant — Sicoob Central Bahia

Mar 2012 – May 2015

Salvador, Brazil

- Started as an IT intern; progressed into support and infrastructure roles — the start of a 9-year career at the institution.

EDUCATION

Bachelor's in Computer Science — Universidade Salvador (UNIFACS), Salvador/BA, Brazil · 2012 – 2016

Equivalent to Irish NFQ Level 8 — Honours Bachelor Degree

SKILLS

- **Core Stack:** TypeScript, Node.js, React, React Native, REST APIs, microservices
- **Backend (earlier years):** PHP, Laravel, Zend, CodeIgniter
- **Cloud & DevOps:** AWS, Microsoft Azure, Docker, Git, CI/CD, Linux, Apache
- **Databases:** PostgreSQL, MySQL, MariaDB, SQL Server
- **Practices:** Clean Code, SOLID, Scrum, Agile, code review
